## New Electronic Doors

The latest stage in the upgrading of our premises is the fitting of electronic doors at both our North & South surgeries.

These have recently been fitted and are wider than the previous doors, providing easier access for all our patients, and in particular those who may require wheelchair access.

## Telephones

Our new telephone system has been in place for 3 months now and we are interested in hearing how our patients are finding the service. In the coming weeks we will be sending out a patient survey which we hope will help us to understand what is working well and what steps we can take to improve the service in the future.

We are always happy to hear your ideas and suggestions and we value your opinions on the service we offer to our patients.

As we move forward in these changing times, if there is anything you would like us to know about or consider please do let us know.

Please feel free to contact us on 0161 983 9797 or email us at [STOCCG.P88005-admin@nhs.net](mailto:STOCCG.P88005-admin@nhs.net)

Wishing all our patients a joyful Christmas

And a happy and healthy New Year
